- Proven team player, winning the Brahma Code Hackathon with my team
- Passionate about solving complex problems and building creative solutions
- Skills: Full-stack development and a strong commitment to continuous learning
- Eager to bring my expertise and collaborative spirit to new professional challenges

PROJECTS

AI-INTERVIEW-PLATFROM

Brahma Code Hackathon, SKIP University SANTEJ *Winner
Developed an AI-powered mock interview platform using NLP and ML, providing real-time feedback to enhance interview skills. Recognized for innovation and practical application.
Winner of Brahma Code Hackathon at SKIP University, SANTEJ.
GITHUB LINK

AI CHAT BOT

SOUIVATHON Hackathon, SILVER OAK University AHMEDABAD
Built an AI-powered chatbot in React with Gemini API integration for advanced NLP. Used Tailwind CSS for a responsive, visually appealing design. The chatbot delivers dynamic responses, enhancing user experience and streamlining interactions for a functional, user-friendly tool.
